

The background image shows a swimming pool with a grey Evodeck cover partially unrolled. The pool is set in a backyard with a white house and a tiled patio. A wicker chair is visible in the foreground.

Evodeck E Series protects beautiful pools!

AUTOMATIC, ABOVE-GROUND COVERS

BWT EVODECK E SERIES

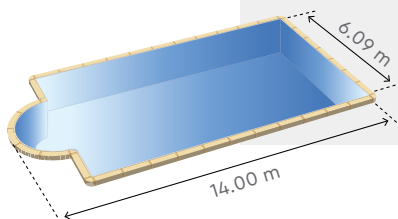

BWT COVERS OFFER THE BEST MEANS OF PROTECTION, SAFETY IS GUARANTEED.

An Evodeck E Series cover, like every BWT cover, is the best available means of preventing accidental falls into a pool.

Evodeck E series complies with every stipulation of the French standard NF P 90-308 and allows you to enjoy your pool with complete peace of mind.

MAXIMUM DIMENSIONS:

The maximum dimensions of a BWT Evodeck E Series cover, are 6.09 × 14.00 metres.

TEMPERATE WATER

A BWT Evodeck E Series cover shelters your pool against cool nights and cold gusting winds. You can begin your pool season in early spring and extend it into late Indian summers.

UP TO 100 KG PER M²

Featuring three air cells per slat, and an anti-deflection system that limits inclination of the slats, it is the outright winner in every flotation category.

PURE WATER

Evodeck E Series covers have an opacity coefficient that inhibits photosynthesis and hence the growth of algae. Your pool water is cleaner thus economising filtration time and water treatment products.

A SIMPLE, CLEVERLY DESIGNED SYSTEM

Evodeck E Series is a BWT cover, designed and manufactured by a market leader

And your summer lasts longer.

AN EXCLUSIVE ANTI-TILT MECHANISM

Like all BWT covers, Evodeck E Series covers are fitted with an anti deflection system that blocks the slats, preventing them from tilting more than 15° towards the bottom. This is the smallest angle of deflection achieved by any slat cover available on the market. This increases the load bearing capacity of the cover and so, offers better protection to you.

An exclusive, patented anti-tilt mechanism to achieve the smallest angle of deflection of any slat cover on the market.

AN ECOCITIZEN APPROACH

By keeping your pool clean and reducing filtration time, Evodeck E Series saves on energy and on pool chemicals.

Because Evodeck E Series reduces the quantity of pool chemicals necessary, it lessens your pool's ecological impact on the environment.

Lastly, as part of its overall environmental design, the PVC that makes up your cover can be recycled. With Evodeck E Series, you get cutting edge technology and reduce your environmental foot print.

UNIQUE SLAT DESIGN

- The best air volume/slat cell wall thickness ratio on the market,
- Ultrasonically welded end plugs: watertightness guaranteed
- Beautiful, down to the finest detail: end plug colours match the slat colours.

The benefit is three-fold:

- Firstly, the air volume/slat thickness ratio ensures excellent cover buoyancy compared to other covers with thicker slats, this increased buoyancy limits the displacement and evacuation of water when the cover is deployed.
- Furthermore, the slats are absolutely leaktight, water cannot enter the air cells. The air trapped inside is thus static and dry, guaranteeing optimum thermal insulation.
- Lastly, because the slat cover is extremely buoyant, it has an excellent load bearing capacity and can easily support the weight of a grown man.

SLATS THAT SLIDE TOGETHER

- Easy assembly of the slat cover apron,
- The slat hinges are protected compared to clipped systems,
- Delivery in pre-assembled sets of 6 slats, assembly is 2 to 3 times faster.

PURE, TEMPERATE WATER

- Evodeck E Series covers have an opacity coefficient that inhibits photosynthesis and hence the growth of algae. Your pool water is cleaner thus economising filtration time and water treatment products.
- The slat cover shelters your pool against cool nights and cold gusting winds. You can begin your pool season in early spring and extend it into late Indian summers.
- Lastly, the surface of the slat in contact with the water is corrugated, this facilitates heat exchange and contributes to heating of the pool water, offsetting slat apron expansion phenomena.

BWT offers

an array of finishes for your Evodeck E Series cover:

COLOURS

BWT offers a wide selection of slat colours :

LOCK SAFETY FASTENERS

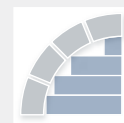

A wide choice of colours for your Lock safety fasteners.

8 Lock fastener colours: White, Light blue, Dark blue, Mint, Beige, Grey, Anthracite grey, Black.

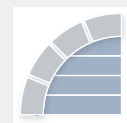

STEP FINISH

BWT covers can be made to fit straight steps, roman steps, even free-form steps. Two type of finish are available, stepped or smooth.

Stepped finish

Smooth finish

BEAUTIFUL

Each cover is designed to harmoniously follow the contour of your pool and the wide choice of slat colours allows you to add an additional touch of refinement.

YOUR POOL JUST AS YOU IMAGINED IT...

BWT Pool Systems is a software application available exclusively from the BWT Group, it is included on the AquaSoft DVD. It allows you to customise your waterproofing finish, your pool fittings and your automatic cover.

You have everything you need to create your dream pool!

Evodeck covers are available in

TWO VERSIONS

EM | MANUAL

ROLLED UP/ OUT BY HAND

Fast and easy to install and very economical. No wiring required.

The cover can be rolled up easily by hand thanks to the reduction gear.

- Can be upgraded to a motorised system,
- No wiring,
- Fast installation,
- May be rolled up effortlessly using a wireless drill (not supplied).

EC | MAINS

ROLLED UP BY A MOTOR WIRED INTO THE MAINS

Simple and reliable, this model features an electrical panel that is installed in the plant room.

- Fast installation,
- Ultra silent 250 Nm reduction geared motor,
- Removable motor,
- With or without ends of travel,
- Simplified winterizing and maintenance,
- Electrical panel integrated into the stand,
- Corrosion proof stands.

LEGAL INFORMATION

The French safety standard NF P 90-308 forbids an uncovered gap of more than 250 mm. In the event that a stepped step finish would result in a gap of more than 250 mm, the step finish will automatically be smooth in that area.

All BWT covers comply with the French standard NF P 90-308 (May 2004 version concerning pool protection) if all items comprising the cover are supplied by

Procopi. Pool safety cover intended to deny children under five access to the pool. This cover is no substitute for common sense or individual responsibility. Nor is it intended to replace the vigilance of parents and/or responsible adults that remains the key factor in ensuring the safety of young children.
