FEATURES

Adjustable front wheel : Optimizes cleaning path.

Water Sensor : Motor activates only when submerged in water.

Magnetic Switch : Absolute sealing to prevent water leakage.

LED Battery Indicator : Lights up during robot operation, begins to blink when 10 minutes of usage remains.

Bagless Debris Management : Spacious compartment to trap a large amount of debris within the textile mesh.

Compact : Compact and lightweight design allows effortless transportation in/out of pool.

Pool Size : Recommended for pools up to 16ft / 4.88m in diameter or 215ft² / 20m² in total area.

Cordless Operation

Unrestricted by power cable, can be used for pools of various sizes

Versatility

Works in flat bottom in-ground and above-ground pools of all types, shapes, and surfaces

Patented

"Stop, Rotate & Go" System

Enables the cleaner to automatically turn around upon contact with pool wall, maximizing cleaning time as a result

Lithium Rechargeable Batteries

Immune from memory effect, consistent performance, extended life

Roller

Rotates while the cleaner is moving to help capture debris.
